3. *Create the McCook County Master Transportation Plan*
Mar – June 2017
 - Selection and prioritization of alternatives
 - Recommendations

McCOOK
COUNTY

MASTER TRANSPORTATION PLAN

Today's Involvement Opportunities

We are requesting your input on the issues, needs, and priorities of the McCook County transportation network...

Transportation Issues and Needs Examples

- Intersections
 - Geometrics
 - Traffic control
- Roadway Segments
 - Roadway surfacing
 - Connectivity and continuity
- Multi-modal
 - Pedestrian/bicycle
 - Railroad crossings
 - Transit services
 - Freight/agriculture needs
- Bridges
 - Width/weight restrictions
- Safety Concerns
 - Applicable to all aspects of the transportation network
 - Current design standards
- Drainage/Flooding
- Rural Development Needs
- ***Priorities?***

What is working well?

There are many benefits to the existing McCook County transportation network...

What is working well for you?

What do you like about the current transportation network?

Please...

Help us identify ISSUES, NEEDS, and PRIORITIES to shape the study:

- 'Mark Up the Map'
- Ask questions and offer suggestions to the team
- Participate in the Transportation Survey
- Provide comments

Comments

- Leave comment form at entryway
- Mail/email comment form to project contact
- Discuss with project representatives
- Submit comment via project website
- *Due by November 10, 2016*

Thank You!
